

4th ANNUAL CONFERENCE PROCEEDINGS

19 & 20 JULY 1989 – Tamworth NSW

“PASTURES REVISITED: GETTING THE MANAGEMENT RIGHT”

Invited Papers	Author	Page
Developing arable and non-arable sulphur deficient slopes country	Norton Crane	3
Increasing production using phosphorus and sulphur	Bob Freebairn	7
Increasing production with phosphorus and sulphur – Northern Slopes	Graham Crocker	15
Success in direct drilling pastures on the slopes	Tye Atkinson	20
Tableland pastures – where are we headed?	Michael Duncan	26
Managing pastures for better utilization and animal production	Ken Archer	34
Lucerne trials identify adapted cultivars	Doug Waterhouse	43
The potential for using native grasses	Greg Lodge	50
Evaluation of subterranean clover cultivars and lines at Tamworth	Ken Archer	54
The role of subterranean clover on the northern NSW slopes	Des FitzGerald	59
Pastures and wool quality	Peter Reis	63
Managing and developing native grass pastures for sustained production and profitability	Frank Crofts	71
Wiregrass management	Mark Thompson	78
Managing cattle on lucerne	Max Uebergang	84
Grazing management and animal health	Bruce Farquharson	89
Resource management for sustained productivity	John Burton	93
Integrating trees for profitable livestock production	Gordon Williams	97
Contributed papers	Author	Page
The effect of nitrogen fertiliser on the winter growth of dryland phalaris	Kevin Morthorpe, Graeme Stewart	105
The evaluation and seed production of selected native and introduced forage species for western New South Wales	Glenn Orman, Kevin Morthorpe and Tim Drew	106
Soil water storage and extraction for irrigated lucerne production on a grey cracking clay	Kevin Morthorpe	107
The variability of nutritive value within white clover	John Ayres	108

Poster Summaries	Author	Page
Landsat data – an aid to fertiliser management of pastures	P Vickery	110
Establishment of warm-season perennial grasses in north-western NSW	Alison Bowman	111
The national white clover program	M Jahufer	112
Does Murex Medic have a role in the central-west of NSW	Martin Blumenthal, Raymond Ison	113
Oldman Saltbush for Australian grazing systems	K. Fixter, B.Peterkin	114
