

23rd ANNUAL CONFERENCE PROCEEDINGS

21-23 JULY 2008 – Tamworth NSW

“PASTURES AT THE CUTTING EDGE”

Invited Papers	Author	Page
<i>MAKING PASTURES PAY – THE PROFIT DRIVERS</i>		
Pushing the profit drivers for pasture	M Gout	9
Factors affecting beef enterprise profitability – experiences from a grazing group in North-West New South Wales	TM Farrell	15
Improved perennial pasture establishment at ‘Ruby Hills’	AD Burgess	18
<i>TAKING CONTROL OF SOIL HEALTH</i>		
Options for managing soil phosphorus supply	A McNeill	23
Biochar: Potential for climate change mitigation, improved yield and soil health	L van Zwieten, S Kimber, K Sinclair, KY Chan and A Downie	30
Changing ‘Glenbrae’	GS Ward	34
<i>PASTURES ON THE HORIZON</i>		
Profitable pastoral farming through genetic modification: fact or friction?	DR Woodfield	37
Pastures for animal production: Understanding the challenges	CT Westwood	43
Towards a tropical grass package for northern New South Wales	SP Boschma, LH McCormick	51
Experiences with the establishment and grazing of tropical grasses on the North-West Slopes of New South Wales	LE Bowman	58
<i>BALANCING PASTURES, LIVESTOCK AND CLIMATE</i>		
Pastures in the high rainfall zone – Their anticipated responses to climate change and their role in minimising net farm greenhouse gas emissions	D Alcock, RS Hegarty	60
Defining the northern New South Wales feed-year and mitigating feed-gaps	AJ Lockyer	70
‘The business of growing a meal’ – the application of new pasture varieties and management practices for intensive beef production	GRT Lord	73
‘Art and science’ – producing high quality forage-based feed for intensive dairy production	JL Drury	75
Contributed papers		
<i>MAKING PASTURES PAY – THE PROFIT DRIVERS</i>		
Assessing management options for the autumn feed deficit	K Mokany, AD Moore	79
Modelling feed profiles and production options	GD Millar, RE Jones and DL Michalk	81
Pasture-cropping in a <i>Bothriochloa macra</i> (red grass) dominant pasture with a low input history	GD Millar, WB Badgery	84
Evaluating change through feed budgets – the Beef-n-omics experience	AJ Rayner	87

Field germination of tropical grasses with new seed coating technology	L Song, G Veness and I Kalms	89
Rate and depth of sowing of sulla (<i>Hedysarum coronarium</i>)	GJ Crocker	93
Effect of sowing depth on emergence of burgundy bean (<i>Macroptilium bracteatum</i>)	GJ Crocker	94
A comparison of the performance of progeny derived from two and three-year old heifers and mature cows	MA McKiernan	96
Improved pasture establishment benefits production with pasture grasses	K Blowers	98
TAKING CONTROL OF SOIL HEALTH		
Soil phosphorus and sulphur in pastures of North-West Slopes and Upper Hunter districts of New South Wales	S Muir, GD Schwenke, LH McCormick, SA Squires and CG Bowman	100
A review of the land application of biosolids as a tool to help restore and sustain New South Wales grasslands	LC Martin	102
PASTURES ON THE HORIZON		
Combining yield with persistence – Pegasis, a new generation winter-active and persistent lucerne variety	S Venkatanagappa, T O'Brien	105
Phoenix, Venture and Matador – new birdsfoot trefoil cultivars for permanent pasture applications in eastern Australia	JF Ayres, WM Kelman and LA Lane	107
Design and analysis on the for spatial effects in pasture trials	RD Murison, JF Ayres, LA Lane and MZZ Jahufer	111
New <i>Panicum</i> cultivars on the horizon for northern New South Wales	CA Harris	114
Trophy – a locally adapted white clover cultivar for dry-land pastures	JF Ayres, JR Caradus, RD Murison, LA Lane and DR Woodfield	116
Where westerwolds work well	AM Leddin	119
Performance of different lucerne dormancy classes under dry-land condition	LM Serafin, JF Scott and B Welsh	121
Lucerne persistence in Central New South Wales	KA Hertel	124
Evaluation of new breeding populations of phalaris for the North-West Slopes of New South Wales	SP Boschma, RA Culvenor	127
Preliminary evaluation of plantain (<i>Plantago lanceolata</i>) cultivar Tonic as a feed for ewe lactation	HG Judson	130
BALANCING PASTURES, LIVESTOCK AND CLIMATE		
EverGraze research in northern New South Wales	GM Lodge, SP Boschma and MA Brennan	133
EverGraze: grazing systems for native pastures in Central-West New South Wales	WB Badgery, GD Millar and PM Cranney	134
Studies of plant biodiversity on properties grazing sheep on the North-West Slopes of New South Wales	NL Schultz, N Reid and GM Lodge	135
Rainfall and soil water content at a native pasture site near Barraba, New South Wales; 2003-2008	GM Lodge, MA Brennan	137
Using modelling to explore the relationships between predicted long-term stocking rate and sheep intake of pasture and supplement for a native perennial grass-based pasture near Barraba, New South Wales	GM Lodge, IR Johnson	141
Potential impact of climate variability on profitability of native pasture improvement in northern NSW	JF Scott, GM Lodge	144
'Drying Order': A management tool for climate change	GH Reid	147
Fertilisation of tropical grass pastures with sulphate of ammonia	WK Manning, MA Kesby	149
Improving the match between feed supply and feed intake of beef cattle on the North-West Plains	JL McConochie	151
